Guild Training

About Guild Training

The Pharmacy Guild of Australia, Victoria Branch is a nationally Registered Training Organisation (RTO). We offer a range of training options to support community pharmacies and their staff to improve career opportunities and boost business. From brand new staff to long-time employees. Guild Training has courses to suit all levels of experience, which can raise confidence, develop skills, further knowledge and increase customer satisfaction.

We have a highly qualified and experienced team and we pride ourselves on being accessible throughout the learning and training process - either online, on the phone, or even in your pharmacy.

Contact our training team today to discuss your training needs or simply enrol into one of our courses via our website today.

Enjoy the Guild Training difference!

Why choose Guild Training?

Qualifications obtained through the Guild are recognised in the industry for their high quality of outcomes for students and pharmacy.

The Pharmacy Guild of Australia is a Registered Training Organisation and has been developing and delivering successful training programs for over 20 years, longer than any other provider.

Guild Trainers and assessors are highly qualified and experienced, as well as being accessible, engaging and great teachers. All have extensive pharmacy experience and understand the needs of pharmacy assistants and community pharmacies.

About The Pharmacy Guild of Australia

The Pharmacy Guild of Australia is the national peak body representing community pharmacy. It seeks to serve the interests of its members and to support community pharmacy in its role delivering quality health outcomes for all Australians.

The Guild is committed to supporting and maintaining the community pharmacy model as the most appropriate and efficient system of delivering medicines, medication management and related services to the Australian public.

A major Guild activity at all levels is close liaison and negotiation with governments, manufacturers, wholesalers and other organisations in the health care delivery system.

The Guild is registered under the federal Fair Work Act (Registered Organisations) Act 2009 as an employers’ organisation.

There has never been a better time to train your team. There are both Victorian and Commonwealth Government funding incentives that make training your team much more accessible and affordable.

The training is delivered with Victorian and Commonwealth Government funding. Guild Training will be able to assist in determining your eligibility for funding. Guild Training encourages people with disabilities to access government funded subsidised training.

VTG Subsidised Training - The Victorian Training Guarantee

The Victorian Training Guarantee makes vocational training more accessible to pharmacy assistants who do not hold a post-school qualification, or who want to gain a higher level qualification than they already hold.

Government-subsidised training places are available to pharmacy assistants who meet the eligibility criteria.

Eligibility for subsidised fees includes:
- citizenship requirements

and are any of the following:
- under 20 years of age
- 20 years and older and ‘upskilling’ by seeking to enrol in a course at a higher level than their existing qualification.
- seeking to enrol in a school based traineeship

Eligibility will be determined by Guild training and other criteria may apply.

Up to $2,200 fee contribution

Commonwealth Trainee Incentives - Traineeships

The Australian Apprenticeships Incentive Program provides a number of incentives to assist employers who take on a trainee. A traineeship is a training contract between an employer and an employee in which the trainee learns the occupation.

Trainees can be anyone of working age who is suitable for employment in the particular industry.

Eligibility for incentives includes:
- meet citizenship requirements
- be a permanent or part-time employee working a minimum of 13 hours per week
- meet ‘new worker’ requirements (employed < 3 months full time or <12 months part-time)
- have not completed a qualification within the last 7 years*

Eligibility is determined by an Australian Apprenticeships Centre (AAC). Guild Training can assist by providing details of your local AAC. (* Qualification exemptions may apply, discuss eligibility with your AAC.)

Up to $4,000 of employer incentives

CONTACT GUILD TRAINING NOW - WE WILL ASSESS YOUR ELIGIBILITY AND FIND THE BEST FUNDING FOR YOUR NEEDS
What are the benefits of training to a pharmacy assistant?

- Staff will be able to demonstrate their knowledge and expertise with nationally recognised qualifications
- Staff can discover new roles and ways that help customers in your pharmacy
- Training can boost confidence and ensure greater job satisfaction
- Training enables pharmacy staff to specialise in areas that interest them and benefit the pharmacy
- Staff will be able to provide better advice and information to your customers

Why train your staff?

- Improve sales and customer service through increased knowledge of pharmacy products and services
- Equip staff with specialised skills
- Retain staff and promote from within
- Increase awareness of marketing and merchandising approaches
- Build staff confidence to take on new tasks and responsibilities
- Ensure staff have the skills required under Quality Care Pharmacy Program (QCPP)
Certificate Courses

A pharmacy assistant’s qualification is often seen as a standard employment requirement. Secure your career by completing one of the following qualifications with Guild Training.

Certificate II in Community Pharmacy (SIR20112)
Suitable for those who are new to community pharmacy, this course provides a foundation in customer service and the retail skills and basic health knowledge needed to work as part of a community pharmacy team.

Certificate III in Community Pharmacy (SIR30112)
Suitable for those looking to expand their product and health knowledge in areas like cough and cold, allergies and asthma management, advance their customer service skills and specialise in a key area of pharmacy practice like health promotion, marketing or dispensary. There are three different Certificate III qualification streams to choose from.

Certificate IV in Community Pharmacy (SIR40112)
Step into a supervising or management role within the pharmacy or move into the dispensary. Through elective units, this qualification can be tailored to provide expertise in: dispensary operations, assisting with health promotion and professional services, including diabetes, blood pressure and sleep apnoea, and leadership and management skills. There are five different Certificate IV qualification streams to choose from.

These qualifications are delivered with Victorian and Commonwealth funding to eligible students. Guild Training will be able to assist in determining your eligibility for funding. Guild Training encourages people with disabilities to access government funded subsidised training. And… if you are already working in a community pharmacy you have the option of applying for Recognition of Prior Learning.

rpl
Recognition Of Prior Learning
CERTIFICATE II IN COMMUNITY PHARMACY SIR20112

Suitable for those who are new to community pharmacy, this course provides a foundation in customer service and the retail skills and basic health knowledge needed to work as part of a community pharmacy team. This course can provide the knowledge, skills and confidence to perform a wide range of pharmacy tasks.

The Certificate II in Community Pharmacy will provide the basic skills required to work as a pharmacy assistant.

WHO SHOULD DO THIS COURSE?

Pharmacy assistants who are new to pharmacy or retail, such as recent school leavers and first time employees.

COURSE DURATION

Full time employees should complete the course within 12 months. Part time employees should complete the course in under 24 months. A training plan is provided to support each student for the duration of the course.

ENTRY REQUIREMENTS

This course requires no prior pharmacy knowledge or training. However students need to be employed within a community pharmacy and working a minimum of 13 hours per week for the duration of the course.

DELIVERY METHOD

This course is delivered via workbook and completed whilst working in a community pharmacy. Support and assessment is provided by a qualified Guild trainer throughout the course duration.

RECOGNITION OF PRIOR LEARNING (RPL)

Recognition of Prior Learning (RPL) is an assessment process which evaluates your existing skills, knowledge and life experience against the training units in the Community Pharmacy qualifications. If eligible you may be given credit for specific units in your qualification based on this assessment – saving you valuable time in gaining your qualification.

- SIRCMER401 Market and promote a pharmacy products and services area
- SIRXMER405 Manage store presentation and pricing
- SIRXCCS304 Coordinate interaction with customers
- SIRXSL5304 Coordinate sales performance
RECOGNITION OF PRIOR LEARNING

Recognition Of Prior Learning (RPL) is an assessment process that matches the skills and knowledge gained through work, study and life experience against the training that is covered in the Community Pharmacy qualifications or individual units from these qualifications.

As we move through life we gain skills and knowledge in many different ways. Skills can be developed by attending short courses, study or training undertaken on the job. Skills and knowledge can also be gained through work in the pharmacy, another business or voluntary work we undertake in the community.

There are a range of benefits to both the learner and employer when RPL is applied:

**LEARNER BENEFITS**
- Recognition of current skills
- Qualification achieved in less time
- Less course work

**EMPLOYER BENEFITS**
- Less time in training
- Motivated staff learning new skills
- Identification of skill or knowledge gaps

Guild Training’s RPL process allows the learner to determine the skills and knowledge they already have, match this to the training they are required to complete and gather evidence to demonstrate their skills.

The evidence provided by the learner is then assessed by a qualified Guild trainer. Guild trainers have current industry experience which ensures that learners are assessed against industry standards.
